Hon. George Hart Warren, of St. John, N. B., died early Monday morning in Williamsville at the home of Mr. and Mrs. Robert W. Byrnes. Mr. Warren has been at the home of his daughter, Mrs. Byrnes, for about a fortnight, coming to Williamsville from New York, where for some time he

has been receiving treatment for an ailment that eventually proved fatal.

Mr. Warren was a prominent resident of St. John and well known throughout the province of New Brunswick. For 23 years he was a member of the board of aldermen of the city of St. John and was always very much interested in an active in promoting municipal affairs.

His high standard of ethics coupled with a keen intelligence and a capacity for getting broad and liberal views of questions of civic importance made his services, which he gave freely, of immeasurable benefit to his home city, where he was appreciated as a citizen of rare value.

For many years Mr. Warren was consulting engineer for the province of New Brunswick, a position of great responsibility and one to which Mr. Warren brought an abundance of technical skill and a wealth of valuable experience. In connection with this appointment he frequently was called as a consulting engineer for the testing and inspection of the power plants of steam propelled vessels.

Mr. Warren was general manager of the Union Foundry and Boiler Works at St. John, this industry being one of chief importance in his list of official business connections.

Sixty-six years ago Mr. Warren was born in St. John and lived all of his life in that city. His recitance in whatever field of endeavor the changing scenes of life placed him earned for him the sobriquet of Honest George Warren, significant of his standing in his home city.

Mr. Warren is survived by his wife, who was with him at Williamsville when he died, by four sons and two daughters. All of his sons are engineers and residents of St. John. The eldest, George H. Warren Jr., city engineer of St. John, John Ernest is an electrical engineer, associated with his father in the foundry industry. Willis and Bert, marine engineers. After Missing Husband. Polish Woman from Blackstone Identifies Man at Christening—Finds She is Mistaken.

Sadly disappointed over an unsuccessful quest for a missing husband, a Polish woman who came here from Blackstone, Mass., returned to that place Monday. She had been told by a local mill worker that her husband, to whom she was married 11 years ago in Salem and who deserted her four years ago in Warren, R. I., was employed in a mill here.

Accompanied by Captain John Murray the woman went into one of the Polish homes in a mill village in the city where a christening party was being held and identified one of the men present as her husband. This proved to be a very great surprise to the man, who had no recollection of ever having married the woman. He did not recall ever having seen her. Later the weeping woman decided that the man she had identified was not her husband; that she did not even know him.

The woman, who has four children, says that her husband when he left her four years ago, said that he was going out to look for work. She has never heard from him since.

ECZEMA ON HEAD, ARMS AND FACE

Spread and Itched. Raw Surface When Scratched. On Body Would Scale Off. Cuticura Soap and Ointment Cured in Three Months.

Howland, Maine.—"My little daughter aged thirteen years was troubled with eczema on the head, arms and face. Some of the sores on the head were as large as a penny and one on the inside of the thigh was as large as a quarter of a dollar and that one lasted over a year. Eczema came out like a little red pimple and spread and would itch and when scratched off would be a raw surface and bleed. Then a dirty scaly scab would grow and on the head was the thickness of a thin piece of paste-board, while on the body it would scale off. "She had this trouble nearly two years when I saw the advertisement of Cuticura Soap and Ointment in the paper and sent for some and the very first application proved its worth. I used the Cuticura Soap with as hot water as could be borne and the Cuticura Ointment after the surface had dried. I used Cuticura Soap and Ointment about three months before she was cured." (Signed) Mrs. J. A. Eldredge, Nov. 7, 1912.

Not only are Cuticura Soap and Ointment most valuable in the treatment of eczemas and other distressing eruptions of skin and scalp, but they are also most effective in the treatment of pimples, blackheads, red, rough skins, itching, scaly scalp, dandruff, dry, thin and falling hair, chapped hands and shapless nails. Sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

When you shave and shampoo with Cuticura Soap you will find it best for skin and scalp.
